

# Salvation Army HOUSING

## Tenant Forums 2021

Forums provide an opportunity for tenants to share and discuss ideas and views, to obtain up to date information and gain access to resources.

Salvation Army Housing staff can also provide referrals and potential access to support services as needed.

Come and join us for a cup of coffee and a chat—all are welcome!

**Air Conditioning**

As the warmer weather arrives, we start to get calls from tenants wishing to enquire about installing air conditioning in their homes.

Please remember that you **MUST** seek permission before proceeding with any air conditioner installations, as they must be installed by a professional contractor.

We will ask for a quote to be provided detailing how and where the air conditioner will be installed, and if necessary, our Asset Worker may also inspect to ensure the correct positioning and installation.

Any air conditioners that have been installed without permission, or by someone who is not a professional, will have to be removed immediately and the correct procedure followed.

If you have any questions regarding this, please feel free to contact the office for clarification.

**Pools in Salvation Army Housing Properties**

When using blow up pools in your yard, you need to remember fencing requirements must be adhered to.

**Portable above ground pools:**

You must ensure that there is adequate fencing or barriers to prevent children from accessing the pool unsupervised. The sides must be unclimbable and over 1.2m in height to not need a fence, and any ladder is to be removed and sufficiently stored out of a child's reach.

***Refer to your local council for exact ruling in your area.***

*On behalf of the Salvation Army Housing Team, we wish you and your family a Merry Christmas, and a safe, healthy and happy new year!*
